Digital Transformation in the Energy Sector Forum 2024

26-27-28 JUNE 2024, IN-PERSON & VIRTUAL, Amsterdam, Netherlands

Simon Evans
Global Digital Leader
Arup

Ulrik Møller
Senior Economist
Energinet

HEAR FROM THE LEADING EXPERTS, INCLUDING:

Jaco Fok
Digital Transformation Consultant, Entrepreneur in Residence
FOUNDER INSTITUTE EUROPE

Kaustav Basu
Data science squad lead
Eneco
Taoufik Ait-Ettajer
Manager Technology Projects
REPSOL

Simone Kranendonk
Liaison, Community Manager
Energy Transition Campus Shell

Oscar Abbink
Director, Energy Technology & Innovation
S&P GLOBAL

Aleksander Langåker
Head of Digital Transformation
Archer
Fausto Pedro García Márquez
Professor
Castilla-La Mancha University

Davide De Michino
Head of products and energy services
Enel X Way

Shoaib Ali
IoT and Computer Engineer
EVALAN

Emmanuelle Brechet
VP Data Technologies
Total Energies
Fabrizio D'Antonio
Asset Integrity Manager
Milazzo Refinery

Praveen Tomar
Head of Process Digitalisation
Ofgem

Abdessamad EL AMRANI
Consultant Sales
Fortinet

Parsia Tayyebi
Global Head of Digital & CX
E.ON Drive

James Daniel
Innovation Project Manager
UK Power Networks

Gediminas Buivydas
Executive School Digital Transformation Business module Manager
ISM University of Management and Economics

Rene Kerkmeester
Global Vice President
Capgemini Smart Grid

Bas Kruimer
Business Director Digital Grid Ops & Cyber Security
DNV

Aidan Rhodes
Research Fellow
Imperial College London

Ayush Gayaprasad
Program Manager
Shell

Yashar Ghiassi-Farrokhfal
Academic Director
Erasmus University Rotterdam

Pieter Schavemaker
Managing Director
E-Bridge

Andres Bastholm
Snr. Innovation & Technology Consultant
Ørsted

08.50 Opening address from the Chair

KEYNOTE ADDRESS

09.00 Status update on the implementation of the Nordic FB DA and ID capacity

calculation and the external parallel run

- Background and timeline
- Status and results of the external parallel run
- Next steps

Pieter Schavemaker
Managing Director
E-Bridge

Ulrik Møller
Senior Economist
Energinet

09.45 Digitalization & transformation

- Strategy and planning
- Projects and execution
- Implementation & change management

Aleksander Langåker
Head of Digital Transformation
Archer

10.30 Coffee break

11.00 **Addressing the challenges of Subsurface Technologies for Energy Transition and Securing the Clean Supply of Critical Minerals: The role of Digital Solution**

Taoufik Ait-Ettajer
Manager Technology Projects
REPSOL

11.45

12.30 Lunch break

13.30 Energy efficency at the heart of new tech (ML/LLM AI)

Abdessamad EL AMRANI
Consultant Sales
Fortinet

14.15 What is this for? Are we cost saving, de-risking, innovating or something else?

- Is our goal risk mitigation, cost saving or competitive advantage and what does that progression entail?
- Pinpointing the right processes for automation: Avoiding costly mistakes
- Intelligent automation vs hyperautomation use cases

Praveen Tomar
Head of Process Digitalisation
Ofgem

15:00   Industrial data management for multi energies: oil/gas, new energies

- Exploring digitalisation in oil and gas
- Exploring digitalisation in renewable energy
- Hydrogen digitalisation

Emmanuelle Brechet
VP Data Technologies
Total Energies

15.30 Coffee break

16.00

16.30 Helping larger companies to leverage their legacy systems to accelerate digital innovation using AI enhanced business process management

Jaco Fok
Digital Transformation Consultant, Angel investor, Entrepreneur in Residence
FOUNDER INSTITUTE EUROPE

LESSONS LEARNED FROM A DECADE OF DIGITAL TRANSFORMATIONS

17.10 End of Day One – Closing word from the Chairman

09:00 The need for open innovation and collaboration for the energy transition

- Introducing the Energy Transition Campus Amsterdam, an industry-first initiative by Shell
- Projects with impact
- Shared Data Spaces: Collaboration and trust in a untrusted era

Simone Kranendonk

Liaison, Community Manager

Energy Transition Campus Amsterdam, Shell

09.30 Smart Grid: A window to the world (Global best practices)

- Global Smart Gid
- Update Best Practices
- Relevant Use Cases

Rene Kerkmeester
Global Vice President
Capgemini Smart Grid

10.00 Digital assets: how machine learning, AI and digital twins are changing the landscape for renewables & storage

- Latest storage solutions
- Exploring efficient business models for digital assets
- An outlook towards the future of digital assets

Andres Bastholm
Snr. Innovation & Technology Consultant
Ørsted

10.45 Coffee break

11.15 How EV flexibility can hep on a sustainable and safe e-Mobility growth

- EV flexibility and VPP: pros and cons
- Where the industry are
- What we can expect on 2024 and 2025

Davide De Michino

Head of products and energy services

Enel X Way

12.00 Lunch break

13.00 Towards an integrated energy data market

Yashar Ghiassi-Farrokhfal

Academic Director

Erasmus University Rotterdam

13.45 Understanding the Pathways to Decarbonisation through a Digital Twin – The Significance of a data driven eco system to facilitate a Net Zero Future

- The Impact of Digitalisation on Planning and Energy Delivery – Managing the integration of data Interoperability, Digital Settlement and Blockchain
- Understanding the Future of Carbon Capture and Carbon Tax – Measuring the impact of policy and regulation whilst acknowledging the emerging role of technology

Aidan Rhodes
Research Fellow
Imperial College London

14.30 Coffee break

15.00 Building the Next Generation Grid Operations machine for real-time data exchange

- Requirements for NextGen GridOps
- Real-time data exchanges across the systems
- Data structuring using the common information model CIM

Bas Kruimer
Business Director
Digital Grid Ops &
Cyber Security
DNV

15.45 A novel ANROA based control approach for grid-tied multi-functional solar energy conversion system

Fausto Pedro García Márquez

Full Professor

Castilla-La Mancha University

16.15 Energy Monitoring on IoT using Data Analytics

Shoaib Ali
IoT and Computer Engineer

EVALAN

17.00 End of Day – Closing word from the Chairman

09.00 Transformation of customer journeys (e-commerce, product mgmt, experience design) for the energy transfromation. Learning from tech companies amongst others

- Strategy: why align journey (product and experience strategies) with organizational and team structures.
- High-Performing Teams: Creating and nurturing cross-functional teams
  Leadership: Discussing new essential leadership principles and practices for success in
- Product Management and Experience Design

Parsia Tayyebi

Global Head of Digital & CX

E.ON Drive

09.45 Designing the business model of energy data hubs

- Data science lifecycle management
- Operationalization of data centricity

Kaustav Basu
Data science squad lead

Eneco

10.30 Coffee break

11.00 **Building the energy sector data sharing infrastructure**

Simon Evans
Global Digital
Energy Leader

Arup

Lunch break

T.EN TECHNIP ENERGIES

SIEMENS energy

13.00 Achieving business objectives with digital solutions

- Identifying the main objectives
- An overview of current and emergining solutions
- Cost-efficiency

Oscar Abbink
Director, Energy
Technology & Innovation
S&P GLOBAL

13.45 Generative AI for Industry: Impact on Data Democratisation & Asset Performance Management

Ayush Gayaprasad
Program Manager
Shell

14.15 Coffee break

14.45   Determining a strategy for leveraging modular system design to strike the balance between speed of deployment and system quality, flexibility and lifecycle

- Developing a standardized design to accelerate deployment of a larger volume of substations and optimize control over equipment lifecycle
- Reconsidering responsibilities between market players to determine appropriate functional requirements and define an interface between modules

James Daniel

Innovation Project
Manager

UK Power Networks

15.15   Driving Agility in Downstream –   How to successfully democratise data and achieve end to end Visibility

- A roadmap for sucessful implementation of effective tools
- Challenges on the way of data democratisation
- How to achieve end to end visibility?

Fabrizio D'Antonio
Asset Integrity
Manager
Milazzo Refinery

15.45   Topic TBA

Gediminas Buivydas
Executive School Digital
Transformation and Business
module manager
ISM University of Management and Economics

16.15 End of the Forum – Closing word from the Chairman

AUTHORISATION AND ACCEPTANCE OF TERMS & CONDITIONS:

Name: _____

Date: _____

Signature: _____

This booking is invalid without a signature authorisation.
The signatory must be authorised to sign on behalf of the contracting organisation.

Terms and Conditions:
By submitting this signed booking form, I agree that the following terms and conditions have been read thoroughly and the content is well understood.

Payment Conditions:
Payment should be made in full immediately after submitting the signed booking form. Payment should always be made in Euros unless indicated otherwise. STMI Forum accepts all kinds of credits cards. Although the preferred means of payment is credit card, in a few cases the bank transfer option may be allowed ONLY on condition that the payment is made within 10 working days upon receiving the proforma invoice. The fee of the event includes the possibility to download speakers' presentations, access to the conference hall & materials, refreshments, lunches and snacks. Each delegate will be responsible for their own hotel accommodation and travel expenses, however STMI Forum will negotiate and offer the best possible hotel rates for its delegates in the same 4-star or 5-star hotel in which the event will take place.

Substitution Policy:
Substitution of delegate(s) is possible at any time without any extra fees. Nevertheless, STMI FORUM would need at least 3 days prior to the event to make arrangements for the substitute(s).

Cancellation Policy:
Incase a delegate would like to cancel their participation for some unexpected eventualities, such requests must be submitted in written and sent by post 4 weeks prior to the event in order to obtain a full credit note for any future event organised by STMI Forum. The fees charged are strictly non-refundable. If STMI Forum would decide to cancel an on-going event, the delegate would receive a 100% refund of their payment. Non-attendance, otherwise referred as a "no show" does not signify cancellation. STMI Forum will not be held responsible for events cancelled for reasons beyond its control such as natural disasters, accidents, sabotage, trade or industrial disputes, outbreak of disease, hostilities, terrorism, etc. However, a full credit note would be given in each of these cases.

Data Protection:
STMI Forum agrees to keep clients' information confidential in its database. The client gives STMI Forum the authority to keep their information in its database and use the information in any way necessary in connection with the event, otherwise consent should be sought. Client information will be removed immediately after receiving a written request by post.

PLEASE NOTE:
All booking forms submitted without a signature are considered invalid. STMI Forum reserves the right to postpone the event to a later date or make changes to the location or confirmed speakers. If a client decides to cancel their participation for these reasons the client will receive a full credit note which covers the amount paid to attend any future event organised by STMI Forum. The hotel information may not be provided at the time of booking but should be ready at least one month prior to the event. In such case, please bear with us.

Copyright:
The information included in this agenda is strictly meant for the company or person who directly received this agenda from STMI Forum. Under NO circumstance should this agenda be published on the internet or be made available to the general public without the prior consent of STMI Forum. All intellectual property rights in all materials produced and distributed by STMI Forum in connection with this event are expressly reserved and any unauthorised duplication, publication or distribution is strictly forbidden.
